## Emergency: This Book Will Save Your Life Neil Strauss

Featuring all new material not included in the print edition, including: two deleted chapters, the contents of Neil's Bugout Bag, a disaster survival cheat sheet on how to survive 35 catastrophic events, and ten emergency-preparedness myths that can kill you.

Terrorist attacks. Natural disasters. Domestic crackdowns. Economic collapse. Riots. Wars. Disease. Starvation.

What can you do when it all hits the fan?

You can learn to be self-sufficient and survive without the system.

**\*\*I've started to look at the world through apocalypse eyes.\*\*** So begins Neil Strauss's harrowing new book: his first full-length work since the international bestseller *The Game*, and one of the most original and provocative narratives of the year.

After the last few years of violence and terror, of ethnic and religious hatred, of tsunamis and hurricanes—and now of world financial meltdown—Strauss, like most of his generation, came to the sobering realization that, even in America, anything can happen. But rather than watch helplessly, he decided to do something about it. And so he spent three years traveling through a country that's lost its sense of safety, equipping himself with the tools necessary to save himself and his loved ones from an uncertain future.

With the same quick wit and eye for cultural trends that marked *The Game*, *The Dirt*, and *How to Make Love Like a Porn Star*, *Emergency* traces Neil's white-knuckled journey through today's heart of darkness, as he sets out to move his life offshore, test his skills in the wild, and remake himself as a gun-toting, plane-flying, government-defying survivor. It's a tale of paranoid fantasies and crippling doubts, of shady lawyers and dangerous cult leaders, of billionaire gun nuts and survivalist superheroes, of weirdos, heroes, and ordinary citizens going off the grid.

It's one man's story of a dangerous world—and how to stay alive in it.

Before the next disaster strikes, you're going to want to read this book. And you'll want to do everything it suggests. Because tomorrow doesn't come with a guarantee...
