The first 25% of the book presents an integrated conceptual framework. The book explains an eight step planning process and introduces the five basic corporate Positions: Get Out, Turnaround, Tune Up, Status Quo and Go For Gold. The reader is able to identify his or her company's Position and select feasible strategic options. There are many examples of the five Principles: Focus, Ethics, Excellence, Frugality and Urgency.

The middle two-thirds of the book emphasizes the practical aspects of examining, assessing and documenting corporate performance, strategic decisions and implementation plans. There are over two hundred tables, diagrams, examples, worksheet and checklists to help shareholders and executives plan and achieve superior financial and competitive performance. The book concludes with detailed instructions on writing strategic, business and financing plans.
