## **Educación hoy: 1 (Hacer familia) (Spanish Edition)** Fernando Corominas

Este libro, basado en los estudios sobre la función de los períodos sensitivos y los instintos guía en la educación de los hijos y alumnos, supone una importante aportación al arte y la ciencia de educar. En sus páginas los lectores podrán encontrar una revalorización de la influencia de los padres y educadores frente a teorías más deterministas que defendían el predominio de la genética sobre el aprendizaje en los procesos educativos. Un libro para educar en la sociedad de hoy, con sus nuevos problemas y sus nuevos retos.

Educación es una ciencia y un arte: sin reglas fijas, pero que hay que conocer, estudiar y dedicar horas de trabajo.

Fernando Corominas es doctor en Ingeniería Naval y Presidente del Instituto Europeo de Estudios de la Educación (IEEE). Lleva más de veinticinco años investigando en el campo de la educación familiar, pronunciando más de mil conferencias en todo el mundo.
