Advances in Organometallic Chemistry and Catalysis: The Silver / Gold Jubilee International Conference on Organometallic Chemistry Celebratory Book

A contemporary compilation of recent achievements in organometallic chemistry

The prestigious International Conference on Organometallic Chemistry (ICOMC) was launched in 1963, providing a forum for researchers from around the world to share their findings and explore new paths to advance our knowledge and application of organometallic chemistry. The 25th ICOMC, held in Lisbon in 2012, gathered more than 1,200 participants from 54 countries. This volume celebrates the 25th Silver Edition and the 50th Gold Year of the ICOMC.

Featuring contributions from invited 25th ICOMC speakers, *Advances in Organometallic Chemistry and Catalysis* highlights recent achievements and new and emerging areas of research in the field. Its seven sections cover:

- Activation and Functionalization of Carbon Single Bonds and Small Molecules
- Organometallic Synthesis and Catalysis
- Organometallic Polymerization Catalysis
- Organometallic Polymers and Materials
- Organometallic Chemistry and Sustainable Energy
- Bioorganometallic Chemistry
- Organometallic Electrochemistry

Chapters discuss fundamental underlying concepts, offer illustrative examples and cases, and explore future avenues for continued research. Readers will discover basic principles and properties of organometallic compounds, reaction mechanisms, and detailed descriptions of current applications. Collectively, these chapters underscore the versatility, richness, and potential of modern organometallic chemistry, including its interrelationships with other scientific disciplines.

All the contributions are extensively referenced, providing a gateway to the most important original research papers and reviews in organometallic chemistry. Presenting a contemporary understanding of organometallic chemistry and its many applications, *Advances in Organometallic Chemistry and Catalysis* is recommended for all researchers in the field, from students to advanced investigators.
