The Imperial University: Academic Repression and Scholarly Dissent

At colleges and universities throughout the United States, political protest and intellectual dissent are increasingly being met with repressive tactics by administrators, politicians, and the police—from the use of SWAT teams to disperse student protestors and the profiling of Muslim and Arab American students to the denial of tenure and dismissal of politically engaged faculty. *The Imperial University* brings together scholars, including some who have been targeted for their open criticism of American foreign policy and settler colonialism, to explore the policing of knowledge by explicitly linking the academy to the broader politics of militarism, racism, nationalism, and neoliberalism that define the contemporary imperial state.

The contributors to this book argue that “academic freedom” is not a sufficient response to the crisis of intellectual repression. Instead, they contend that battles fought over academic containment must be understood in light of the academy’s relationship to U.S. expansionism and global capital. Based on multidisciplinary research, autobiographical accounts, and even performance scripts, this urgent analysis offers sobering insights into such varied manifestations of “the imperial university” as CIA recruitment at black and Latino colleges, the connections between universities and civilian and military prisons, and the gender and sexual politics of academic repression.
