Dreams of Destiny in the Babi and Bahai Faiths Amir Badiei

Dreams of Destiny in the Babi and Bahai Faiths takes readers deep into the significant role dreams play in almost all the religions and cultures of the world. Some people have thought of dreams as a link between man and the spiritual world, the hallowed realm. In the writings of the Bahai Faith, the phenomenon of dreaming is often cited as a proof for the existence and immortality of the human soul, and the history of the Bahai Faith contains many examples of dreams serving as premonitions, warnings, or reassurances to different individuals.

This compilation of significant dreams within Bahai history will delve into how they influenced the lives of the dreamer as well as those around them. Some dreams confirm the faith of the dreamer, others provide comfort during a time of sorrow or impending death, and still others warn of dire consequences as a result of a dreamer's wicked deeds.

Dr. Amir Badiei has meticulously compiled each dream and has explained relevance to the dreamer and to the period of history in which the dreamer lived. It is hoped that this exploration of significant dreams will provide reassurance and relief to a world seeking proof that God exists and that He is watching over humanity.
