Head First Java Kathy Sierra, Bert Bates

Learning a complex new language is no easy task especially when it s an object-oriented computer programming language like Java. You might think the problem is your brain. It seems to have a mind of its own, a mind that doesn't always want to take in the dry, technical stuff you're forced to study.

The fact is your brain craves novelty. It's constantly searching, scanning, waiting for something unusual to happen. After all, that's the way it was built to help you stay alive. It takes all the routine, ordinary, dull stuff and filters it to the background so it won't interfere with your brain's real work--recording things that matter. How does your brain know what matters? It's like the creators of the Head First approach say, suppose you're out for a hike and a tiger jumps in front of you, what happens in your brain? Neurons fire. Emotions crank up. Chemicals surge.

That's how your brain knows.

And that's how your brain will learn Java. *Head First Java* combines puzzles, strong visuals, mysteries, and soul-searching interviews with famous Java objects to engage you in many different ways. It's fast, it's fun, and it's effective. And, despite its playful appearance, Head First Java is serious stuff: a complete introduction to object-oriented programming and Java. You'll learn everything from the fundamentals to advanced topics, including threads, network sockets, and distributed programming with RMI. And the new. second edition focuses on Java 5.0, the latest version of the Java language and development platform. Because Java 5.0 is a major update to the platform, with deep, code-level changes, even more careful study and implementation is required. So learning the Head First way is more important than ever.

If you've read a Head First book, you know what to expect--a visually rich format designed for the way your brain works. If you haven't, you're in for a treat. You'll see why people say it's unlike any other Java book you've ever read.

By exploiting how your brain works, *Head First Java* compresses the time it takes to learn and retain-- complex information. Its unique approach not only shows you what you need to know about Java syntax, it teaches you to think like a Java programmer. If you want to be bored, buy some other book. But if you want to understand Java, this book's for you.

From reader reviews:

Chester Walters:

The book Head First Java make you feel enjoy for your spare time. You may use to make your capable far more increase. Book can to get your best friend when you getting strain or having big problem along with your subject. If you can make reading through a book Head First Java to be your habit, you can get a lot more advantages, like add your personal capable, increase your knowledge about a number of or all subjects. You may know everything if you like wide open and read a guide Head First Java. Kinds of book are a lot of. It means that, science reserve or encyclopedia or other folks. So , how do you think about this reserve?

Linda Williams:

Reading a e-book tends to be new life style with this era globalization. With examining you can get a lot of information that may give you benefit in your life. Along with book everyone in this world can share their idea. Textbooks can also inspire a lot of people. A great deal of author can inspire their particular reader with their story or their experience. Not only the story that share in the textbooks. But also they write about the data about something that you need case in point. How to get the good score toefl, or how to teach children, there are many kinds of book that you can get now. The authors these days always try to improve their talent in writing, they also doing some study before they write for their book. One of them is this Head First Java.

Stephen Adams:

Reading a book for being new life style in this 12 months; every people loves to study a book. When you read a book you can get a lot of benefit. When you read guides, you can improve your knowledge, due to the fact book has a lot of information in it. The information that you will get depend on what sorts of book that you have read. If you wish to get information about your research, you can read education books, but if you act like you want to entertain yourself read a fiction books, these us novel, comics, as well as soon. The Head First Java offer you a new experience in reading through a book.

Thomas Manna:

This Head First Java is new way for you who has curiosity to look for some information since it relief your hunger associated with. Getting deeper you onto it getting knowledge more you know otherwise you who still having little bit of digest in reading this Head First Java can be the light food for you personally because the information inside this kind of book is easy to get by simply anyone. These books develop itself in the form and that is reachable by anyone, yep I mean in the e-book contact form. People who think that in publication form make them feel tired even dizzy this guide is the answer. So there is not any in reading a book especially this one. You can find actually looking for. It should be here for a person. So , don't miss the idea! Just read this e-book variety for your better life as well as knowledge.
