## **Economic and Philosophic Manuscripts of 1844: With linked Table of Contents** Karl Marx

In the Economic and Philosophic Manuscripts of 1844 Marx explains how, under capitalism, people rely on labor to live. In the past people could rely on Nature itself for their natural needs; in modern society, if one wants to eat, one must work: it is only through money that one may survive. Thus, man becomes a slave to his wages. It is only through his work that he can find enough money to continue to live; but he doesn't simply live, he actually only survives, as a worker. Labor is only used to create more wealth, instead of achieving the fulfillment of human nature.
