Elsevier's Dictionary of Herpetological and Related Terminology D.C. Wareham

The dictionary is a compilation of clear, concise and informative definitions of the characteristic vocabulary commonly encountered and used by herpetologists when discussing, reading, or writing about reptiles and amphibians. It is intended for all those who have an interest in these animals, from the amateur hobbyist who may find himself faced with what can be a rather intimidating scientific term or technical expression, to the trained zoologist who may sometimes have doubts over the exact meaning of a particular term. It will, it is hoped, not only be a useful source of reference to all who are either actively or passively involved in some aspects of herpetology whether they be keepers, curators, breeders, researchers, teachers or students, but an interesting read as well.

From reader reviews:

Shirley Frazier:

The book Elsevier's Dictionary of Herpetological and Related Terminology can give more knowledge and information about everything you want. Why then must we leave the good thing like a book Elsevier's Dictionary of Herpetological and Related Terminology? Several of you have a different opinion about e-book. But one aim that book can give many details for us. It is absolutely suitable. Right now, try to closer with the book. Knowledge or info that you take for that, you are able to give for each other; you could share all of these. Book Elsevier's Dictionary of Herpetological and Related Terminology has simple shape but the truth is know: it has great and large function for you. You can appear the enormous world by open and read a publication. So it is very wonderful.

Laurie Dunn:

What do you concerning book? It is not important along? Or just adding material when you want something to explain what the one you have problem? How about your spare time? Or are you busy man or woman? If you don't have spare time to try and do others business, it is make one feel bored faster. And you have extra time? What did you do? Every person has many questions above. They need to answer that question simply because just their can do in which. It said that about guide. Book is familiar in each person. Yes, it is suitable. Because start from on pre-school until university need this particular Elsevier's Dictionary of Herpetological and Related Terminology to read.

Luis Poole:

This book untitled Elsevier's Dictionary of Herpetological and Related Terminology to be one of several books this best seller in this year, honestly, that is because when you read this reserve you can get a lot of benefit upon it. You will easily to buy this book in the book retail outlet or you can order it through online. The publisher of the book sells the e-book too. It makes you easier to read this book, as you can read this book in your Cell phone. So there is no reason to you to past this reserve from your list.

Pamela Stanley:

Your reading 6th sense will not betray an individual, why because this Elsevier's Dictionary of Herpetological and Related Terminology e-book written by well-known writer we are excited for well how to make book which might be understand by anyone who else read the book. Written with good manner for you, still dripping wet every ideas and creating skill only for eliminate your own personal hunger then you still skepticism Elsevier's Dictionary of Herpetological and Related Terminology as good book not simply by the cover but also with the content. This is one publication that can break don't assess book by its cover, so do you still needing one more sixth sense to pick that!? Oh come on your reading sixth sense already said so why you have to listening to a different sixth sense.
