The story of a young couple who, without any prior sailing experience, decide one night over too many drinks that they are going to sail around the world. One year later they are bobbing around in the Bahamas on a 35 foot catamaran teaching themselves how to cross oceans in a small boat.

Along their way they meet amazing people, visit locations only accessible by those on their own yachts, become television actors in Australia, minor celebrities in Puerto Rico, and generally have a great time of it all.

They aren't your average cruisers by any stretch of the imagination, and run afoul of what most cruisers perceive to be "real" cruisers. But for four years they sailed around the world on their own terms.

This is their story, and is essential reading for anybody who has ever had the dream to sail around the world. This book just might push you over the edge, and the horizon.
