**The World's Population: An Encyclopedia of Critical Issues, Crises, and Ever-Growing Countries** Fred Shelley

This one-volume encyclopedia examines key topics, major world players, and imminent problems pertaining to the world's ever-growing population.

- Provides interesting facts and figures through informative sidebars
- Reveals the populations of major countries and cities of the world to illustrate where people reside most and least
- Features maps, charts, and graphs to support visual learning and to compare and contrast factors affecting birth rates, deaths, and overall population profiles
- Contains excerpts from documents such as legislation and speeches relating to population and critical issues
- Examines the implications of China's one-child policy on controlling the population
