EPC and 4G Packet Networks: Driving the Mobile Broadband Revolution

Magnus Olsson, Catherine Mulligan

EPC and 4G Packet Networks: Driving the Mobile Broadband Revolution Magnus Olsson, Catherine Mulligan

Get a comprehensive and detailed insight into the Evolved Packet Core (EPC) with this clear, concise and authoritative guide – a fully updated second edition that covers the latest standards and industry developments

KEY FEATURES

- The only book to describe and explain the entire EPC including architecture, features and protocols, giving you the knowledge and insight to see the potential in EPC, develop EPC products and deploy LTE/EPC mobile broadband Networks
- The Second Edition includes 150+ new pages and numerous new illustrations. The content has also been focused towards the mainstream deployment scenarios
- Written by established experts in the 3GPP standardization process, with extensive, in-depth experience of its goals, development and future direction
- Case studies of deployment scenarios show how the functions described within EPC are placed within a live network context
- Forewords written by Dr. Kalyani Bogineni and Dr. Ulf Nilsson

DESCRIPTION

- The latest additions to the Evolved Packet System (EPS) including e.g. Positioning, User Data Management, eMBMS, SRVCC, VoLTE, CSFB
- A detailed description of the nuts and bolts of EPC that are required to really get services up and running on a variety of operator networks
- An in-depth overview of the EPC architecture and its connections to the wide variety of network accesses, including LTE, LTE-Advanced, WCDMA/HSPA, GSM, WiFi, etc.
- The most common operator scenarios of EPS and the common issues faced in their design
- The reasoning behind many of the design decisions taken in EPC, in order to understand the full details and background of the all-IP core

NEW CONTENT TO THIS EDITION

- 150+ New pages, new illustrations and call flows
- Covers 3GPP Release 9, 10 and 11 in addition to release 8
- Expanded coverage on Diameter protocol, interface and messages
- Architecture overview
- Positioning
- User Data Management
- eMBMS (LTE Broadcasting)
- H(e)NodeB/Femto Cells
- LIPA/SIPTO/Breakout architectures
- Deployment Scenarios
- WiFi interworking
- VoLTE/MMTel, CS fallback and SRVCC

- SAE is the core network that supports LTE, the next key stage in development of the UMTS network to provide mobile broadband. It aims to provide an efficient, cost-effective solution for the ever-increasing number of mobile broadband subscribers
- There is no other book on the market that covers the entire SAE network architecture; this book summarizes the important parts of the standards, but goes beyond mere description and offers real insight and explanation of the technology
- Fully updated with the latest developments since the first edition published, and now including additional

material and insights on industry trends and views regarding future potential applications of SAE

From reader reviews:

Jim Moffett:

This EPC and 4G Packet Networks: Driving the Mobile Broadband Revolution book is not ordinary book, you have after that it the world is in your hands. The benefit you get by reading this book is usually information inside this e-book incredible fresh, you will get information which is getting deeper an individual read a lot of information you will get. This particular EPC and 4G Packet Networks: Driving the Mobile Broadband Revolution without we know teach the one who reading through it become critical in pondering and analyzing. Don't always be worry EPC and 4G Packet Networks: Driving the Mobile Broadband Revolution can bring if you are and not make your handbag space or bookshelves' grow to be full because you can have it within your lovely laptop even cellphone. This EPC and 4G Packet Networks: Driving the Mobile Broadband Revolution having great arrangement in word as well as layout, so you will not really feel uninterested in reading.

Omar Carter:

The guide with title EPC and 4G Packet Networks: Driving the Mobile Broadband Revolution contains a lot of information that you can learn it. You can get a lot of profit after read this book. This book exist new know-how the information that exist in this publication represented the condition of the world right now. That is important to yo7u to know how the improvement of the world. This particular book will bring you inside new era of the syndication. You can read the e-book on your smart phone, so you can read that anywhere you want.

Penny Risley:

Are you kind of active person, only have 10 or 15 minute in your morning to upgrading your mind skill or thinking skill perhaps analytical thinking? Then you are receiving problem with the book when compared with can satisfy your limited time to read it because all this time you only find e-book that need more time to be read. EPC and 4G Packet Networks: Driving the Mobile Broadband Revolution can be your answer because it can be read by you who have those short free time problems.

Stella Keith:

The book untitled EPC and 4G Packet Networks: Driving the Mobile Broadband Revolution contain a lot of information on that. The writer explains the girl idea with easy approach. The language is very straightforward all the people, so do not worry, you can easy to read this. The book was authored by famous author. The author gives you in the new period of time of literary works. It is easy to read this book because you can read more your smart phone, or program, so you can read the book inside anywhere and anytime. If you want to buy the e-book, you can start their official web-site and also order it. Have a nice read.
